

**Dr Mary McCormack BSc MSc PhD MBBS FRCR  
Consultant Clinical Oncologist**

Mary McCormack qualified as doctor from Guys and St Thomas's Hospitals London in 1993. Prior to attending medical school she undertook research in radiation biology and was awarded a PhD in 1989. She has worked in some of the top London cancer centres and was awarded the FRCR in Clinical Oncology in 2000. She was subsequently appointed as a consultant clinical oncologist at UCLH in March 2002.

She treats all types of gynaecological cancer including cancers of the ovary, womb / uterus, cervix and breast using chemotherapy, radiotherapy and brachytherapy. She is particularly interested in cervical cancer treatment, radiation injury to bowel, fertility and cancer therapy in general and targeted agents in breast cancer, ovarian cancer and endometrial cancer.

Mary is the lead for Clinical Oncology for the North London Gynaecology Cancer Centre based at UCLH. She is also a member of the NCRI Gynae Cancer Clinical Studies Group and is an NCRI representative on the Gynaecological Cancer Intergroup. She is a major contributor to national and international clinical trials.
